NOTICE OF PRIVACY POLICIES

Effective Date: January 16, 2017

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

We understand the importance of privacy and are committed to maintaining the confidentiality of your medical information. We make a record of the medical care we provide and may receive such records from others. We use these records to provide or enable other health care providers to provide quality medical care, to obtain payment for services provided to you as allowed by your health plan, and to enable us to meet our professional and legal obligations to operate this medical practice properly. We are required by law to maintain the privacy of protected health information and to provide individuals with notice of our legal duties and privacy practices with respect to protected health information. This Notice describes how we may use and disclose your medical information. It also describes your rights and our legal obligations with respect to your medical information. If you have any questions about this Notice, please contact our Privacy Officer listed above.

A. How This Medical Practice May Use or Disclose Your Health Information

This medical practice collects health information about you and stores it in a chart and on a computer. This is your medical record. The medical record is the property of this medical practice, but the information in the medical record belongs to you. The law permits us to use or disclose your health information for the following purposes:

- 1. Treatment.** We use medical information about you to provide your medical care. We disclose medical information to our employees and others who are involved in providing the care you need. For example, we may share your medical information with other physicians or other health care providers who will provide services which we do not provide. We may also share this information with a pharmacist who needs it to dispense a prescription to you, or a laboratory that performs a test. We may also disclose medical information to members of your family or others who can help you when you are sick or injured.
- 2. Payment.** We use and disclose medical information about you to obtain payment for the services we provide. For example, we give your health plan the information it requires before it will pay us. We may also disclose information to other health care providers to assist them in obtaining payment for services they have provided to you.
- 3. Health Care Operations.** We may use and disclose medical information about you to operate this medical practice. For example, we may use and disclose this information to review and improve the quality of care we provide or the competence and qualifications of our professional staff. We may use and disclose this information to get your health plan to authorize services or referrals. We may also use and disclose this information as necessary for medical reviews, legal services and audits, including fraud and abuse detection, compliance programs and business planning and management. We may also share your medical information with our "business associates," such as our billing service, that perform administrative services for us. We have a written contract with each of these business associates that contains terms requiring them to protect the confidentiality and security of your medical information. Although federal law does not protect health information which is disclosed to someone other than another healthcare provider, health plan, healthcare clearinghouse, or one of their business associates, California law prohibits all recipients of healthcare information from further disclosing it except as specifically required or permitted by law. We may also share your information with other health care providers, health care clearinghouses or health plans that have a relationship with you, when they request this information to help them with their quality assessment and improvement activities, their patient-safety activities, their population-based efforts to improve health or reduce health care costs, protocol development, case management or care coordination activities, their review of competence, qualifications and performance of health care professionals, their training programs, their accreditation, certification or licensing activities, their activities related to contracts of health insurance or health benefits, or their health care fraud and abuse detection and compliance efforts.
- 4. Health Information Exchange (HIE).** TOSMG may make your individual health information available to a sponsored Health Information Exchange (HIE) and to a regional and/or National Health Information Exchange including, but not limited to, the National Health Information Network (NHIN). A HIE is the electronic transmission of healthcare-related information among facilities, health information organizations and government agencies which provides a mechanism for healthcare providers to share information electronically, with the common goal to improve healthcare delivery and the quality of care for our patients while protecting the privacy and security of Health Information. For example, we will be sharing your health information with our Accountable Care Organization (ACO). If you received treatment in our office; and your physician, who may be a participant in our ACO, would be able to access and review the treatment you received at the office during your physician office visit. Your physician will have access to the most current information about your care and treatment.

Accountable Care Organizations (ACO) are organizations formed by groups of doctors and health care providers that have agreed to work together to improve care coordination and providing care that is appropriate, safe and timely. An ACO must meet quality standards set by the Centers of Medicare Medicaid Services (CMS) relating to care coordination and patient safety, appropriate use of preventative health services, improved care for at-risk populations, and patient and caregiver experience of care.

5. **Appointment Reminders.** We may use and disclose medical information to contact and remind you about appointments. If you are not home, we may leave this information on your answering machine or in a message left with the person answering the phone.
6. **Sign In Sheet.** We may use and disclose medical information about you by having you sign in when you arrive at our office. We may also call out your name when we are ready to see you.

In the event of a disaster, we may disclose information to a relief organization so that they may coordinate these notification efforts. We may also disclose information to someone who is involved with your care or helps pay for your care. If you are able and available to agree or object, we will give you the opportunity to object prior to making these disclosures, although we may disclose this information in a disaster even over your objection if we believe it is necessary to respond to emergency circumstances. If you are unable or unavailable to agree or object, our health professionals will use their best judgment in communication with your family and others.
8. **Marketing.** Provided we do not receive any payment for making these communications, we may contact you to encourage you to purchase or use products or services related to your treatment, case management or care coordination, or to direct or recommend other treatments, therapies, health care providers or settings of care that may be of interest to you. We may similarly describe products or services provided by this practice and tell you which health plans we participate in, We may receive financial compensation to talk with you face-to-face, to provide you with small promotional gifts, or to cover our cost of reminding you to take and refill your medication or otherwise communicate about a drug or biologic that is currently prescribed for you, but only if you either: (1) have a chronic and seriously debilitating or life-threatening condition and the communication is made to educate or advise you about treatment options and otherwise maintain adherence to a prescribed course of treatment, or (2) you are a current health plan enrollee and the communication is limited to the availability of more cost-effective pharmaceuticals.
